Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Rick Batt on September 14, 2006.

The application has been amended as follows:

Claim 26, line 1: "22" has been replaced with --24--

Claims 43-51 and 53 have been canceled.

In the specification

The following has been inserted as the first sentence of the specification: --This application claims the benefit of US Serial Number 60/445,405 filed 02/05/2003.—

After paragraph [0025], the following has been added: --Fig. 2C illustrates an electrosurgical probe having a temperature-indicating element according to another embodiment of the invention.—

Paragraph [0030], line 1: "6A-E" has been changed to --6A-F--

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the claims have been amended to more clearly distinguish the invention over the prior art by reciting the specific location for the temperature-indicating element. The closest prior art is the Truckai et al reference (2003/0216732) which merely discloses coating the electrode with a thermochromic material. There is no teaching or suggestion in the prior art for providing the temperature indicating material in the specific location as now recited in the claims.

It is noted that claims 4, 5, 11, 12, 16, 18, 19, 24-26, 28, 35-39 and 52 were previously withdrawn from consideration and have now been rejoined in view of the allowance of independent claims from which they depend.

The amendments to the specification are to provide a brief description for all the drawings and to include the reference to the priority application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Peffley whose telephone number is (571) 272-4770. The examiner can normally be reached on Mon-Fri from 6am-3pm.
